

## Manual Garment bagging machine

Garment bagging machines for , the garment industry, hotels and professional packing companies.

### MB-1

#### Sequence of operation.

The garment is placed on the hanging hook

Operator pulls the bag over the garment

By pulling down the long bar across the front of the machine this will activate the cutting and sealing process.

The end seal can then be executed by pressing the front of the seal bar by hand against the bag.

(foot pedal operation optional).

The bottom seal is fully adjustable.

Straight or angle seal selectable as standard.
